

Aanal Gurukul × DE VIBE

Omnichannel Customer Acquisition & Digital Commerce Engine

Core Pitch Thesis

Over 80% of ethnic couture purchases in Ahmedabad and abroad begin with digital discovery. DE VIBE bridges the gap between passive online browsing and high-margin sales—funneling qualified digital leads straight into your WhatsApp inbox and physical Shantam Complex boutique.

Pillar 1: Eliminating the Fractured Digital Journey

The Problem: Static Instagram feeds create drop-offs ("Price please?" DMs get lost). Customers hesitate on sizing for expensive lehengas.

The DE VIBE Solution:

- **1-Click WhatsApp Commerce Box:** Placed on every product card, cart drawer, and story reel with pre-filled SKU, size, color, and price.
- **Custom Made-to-Measure Tailoring Form:** Built-in measurement inputs (Bust, Waist, Hips, Height) eliminate fit returns.
- **Vercel Edge Geolocation:** Auto-detects visitors in the USA, UK, UAE, and Canada, converting prices into local currency (USD, GBP, AED, CAD).

Pillar 2: Monetizing Local Social Proof & In-Store Feedback Loop

The Problem: Walk-in customers love the boutique experience but rarely leave Google reviews without frictionless prompts.

The DE VIBE Solution:

- **Live Google Review Web Carousels:** Displays verified 5-star customer testimonials directly on the homepage.
- **In-Store Billing QR Desk Stands:** Elegant counter stands with "Scan to Review on Google & Receive 10% Off Next Festive Purchase."
- **Post-Delivery Feedback Loop:** Automated WhatsApp follow-ups with 1-tap Google Maps review links.

Pillar 3: Google Merchant Center & Visual Search Domination

The Problem: Local searchers looking for *"Lakhnavi Nayra Cut Suit Ahmedabad"* or *"Wine Bridal Lehenga"* only see marketplaces like Myntra.

The DE VIBE Solution:

- **Automated Google Shopping RSS 2.0 XML Feed:** Direct indexing of all 22+ outfits into Google Merchant Center.
- **Top-of-Search Visual Cards:** Aanal's outfits appear with photos, prices, and direct store links right at the top of Google.

The DE VIBE Advantage vs. Traditional Agencies

Strategic Metric	Typical Freelancer / Agency	The DE VIBE Engine
Business Focus	Deliver a static website and leave	Drive direct WhatsApp sales & Shantam store footfall
Speed & Proof	Takes 4-6 weeks to show wireframes	Ready right now on your phone (7-Day Free Live Trial)
Payment Infrastructure	Basic payment buttons	Razorpay + 1-Click WhatsApp + UPI QR + COD + Invoicing
Global NRI Reach	Single currency (INR only)	Vercel Edge Geolocation (USD, GBP, AED, CAD, EUR)

👉 RECOMMENDED CLOSING SCRIPT

"Viragbhai / Sir, other agencies will show you PowerPoint slides. We have already built your complete, high-speed luxury storefront with 22 of your actual outfits live right now on your phone: **devibe70-ux.github.io/AANAL/**.

We are offering a **7-day free trial** with zero upfront cost. Share it on Instagram and test it with 10 VIP clients. Once you see the WhatsApp inquiries and orders rolling in, we'll connect your domain and scale Aanal Gurukul together."
